

Table 12.—Number and percentage distribution of children receiving federally administered SSI payments, by number of parents in the household, December 2000 <sup>1</sup>

| Parents in household            | Number  | Percent |
|---------------------------------|---------|---------|
| Total.....                      | 843,000 | 100.0   |
| No parent(s) <sup>2</sup> ..... | 113,030 | 13.4    |
| One parent.....                 | 526,690 | 62.5    |
| Two parents.....                | 203,280 | 24.1    |

<sup>1</sup> The total of children with one or two parents in the household differs slightly from the number of children living in a parent's household in table 7. This is because table 7 represents only households where a parent is the head of the household, where this table includes children living with parents who are not head of the household.

<sup>2</sup> Children with no parent(s) in the household reside independently, with other relatives or non-relatives, or in institutions or foster care situations. Deeming does not apply in these situations.
